"It is required of a man that he should share the passion and action of his time, at the peril of being judged not to have lived."

Our Founding Fathers placed a very high premium on the God-given right of law-abiding citizens to protect themselves both from tyrannical government, and from assailants. This sacred right is firmly established in both our federal and state constitutions, which I took a solemn oath to uphold. I have no intention of violating my oath of office in any fashion. I am deeply opposed to legislation in the House which would infringe upon the state and federal right to keep and bear arms. Citizens should not have to register their firearms with the government, nor should limits be placed on the number of firearms they can purchase within a given timeframe.

State Senator Mike Folmer
48th District
